DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 5-6, 10, 11, 15-16, 20-21 and 25-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Ochi et al. (Ochi) (US 6,483,939).

With regard to claims 1, 6, 11, 16 and 21, Ochi discloses a data processing system comprising: a data accumulating means to accumulate virtual space data as a set of 3-dimensional data specifying shape, a coordinate system setting means to set a virtual reference point and virtual coordinate axes in said virtual space, a detecting means to detect a relative position and a gradient in a real space, a position specifying means to specify virtual positions in said virtual space in accordance with said position data detected by said detecting means, an area selecting means to select a desired

area in said virtual space in accordance with said virtual positions specified by said position specifying means, and a storing means to store an image of said desired area selected by said selecting means (col 7, line 64 – col 13, line 53).

With regard to claims 5, 10, 15, 20 and 26, Ochi discloses wherein said 3-dimensional data further includes data on color, dimension and texture (col 8, lines 15-22).

With regard to claim 25, Ochi discloses wherein said data processing system has a plurality of moving means in said virtual space (col 7, line 64 – col 13, line 53).

Allowable Subject Matter

3. Claims 2-4, 7-9, 12-14, 17-19 and 22-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
